17 February 1987

Professor George W. Breslauer  
Department of Political Science  
University of California  
Berkeley, California 94720

Dear George:

This letter has a two-fold purpose--to formally thank you again for your superb seminar, and to invite you to return for an encore. We are in the process of preparing schedules for fiscal 1988 (1 October 1987 - 30 September 1988), and I hope you will offer another Perspectives on the Soviet Union Seminar during that time frame. If you could suggest a week to me by 16 March, I should be able to work it into our schedule.

I just reread the student evaluations of your seminar, and pass along some observations. All were complimentary, and the recommendations were all positive. Some suggested more discussion, others less discussion but more lecture--reflections of the diverse backgrounds among participants. The balance was highly commended, while several expressed a desire for more on current Soviet realities. For a second running, I would begin by inviting each student to say something about his/her backgrounds and areas of interest, and in the process hopefully encourage more exchange among the students.

Thanks again. I look forward to hearing from you.

Sincerely,

Intelligence Training Division  
Office of Training and Education

*George -**I've heard nothing  
but superlatives about  
your seminar.**Hope you can do it  
again!*
